Bringing Confidence to Compliance

Effective Corrective and Preventive Action (CAPA) management is an integral part of an organization's compliance efforts and critical to any continual improvement plan.

BSI Action Manager – powered by Entropy™ Software – enables organizations to capture, track, and maintain accurate, auditable non-conformance records. BSI Action Manager provides an end-to-end solution that helps companies capture and profile findings from anywhere in their operations, conduct investigations to determine

the root cause of the issue, track the entire action management process, implement required changes, and ensure that the issue is resolved quickly and effectively. Powerful analytics and reporting capabilities, offers managers and other stakeholders real-time visibility into the nonconformity remediation process – from initiation to closure.

No matter where an issue originates, or how many departments it touches, BSI Action Manager can effectively manage its resolution.

BSI Action Manager – the framework to drive operational excellence

Working with over 70,000 clients in over 150 countries, BSI is aware of the common challenges faced in the action management process. BSI Action Manager aligns with other management system related processes such as audits, nonconformities, incident management - even key findings raised from your BSI audit. It is designed to manage, maintain, and automate all of your nonconformities, tasks, action plans, and root cause analysis in a fully integrated and auditable manner.

Low Cost, Subscription Pricing

Imagine if corrective and preventive action management was easy. It can happen! BSI makes it even easier for companies to gain visibility into operational performance.

BSI Action Manager is a quick, easy, economical way to manage all required actions of a business system.
