

PRODUCTS

Quality Products for Your In-House Measurement & Inspection Equipment Needs

Our dimensional measurement lab personnel are the most demanding of all when it comes to the measurement and inspection equipment they use. We put this expertise to work for you to help specify, purchase, set up, integrate and validate the metrology equipment you need. **Q-PLUS Labs** has a full line of dimensional measurement & inspection equipment from a growing number of top manufacturers. We only sell products we rigorously test and approve for use in our own measurement lab to assure they will work for you. **Q-PLUS Labs** offers cost-effective, value-oriented solutions for your in-house measurement and inspection equipment needs.

Let a **Q-PLUS Labs** Product Sales Representative offer a cost-effective solution.

- Vision & Multi-Sensor Vision Systems
- CMMs and DCC-CMMs
- 3D Scanners & Software
- Surface Finish Analyzers
- Optical Comparators
- Photogrammetry
- Validation Artifacts
- Multi-Sensor CMMs
- Portable CMMs / Articulating Arms
- Inline Measurement Systems
- High-Accuracy Form & Roundness Testing
- Custom Gages & Check Fixtures
- Statistical Process Control (SPC)
- Retrofits

DIMENSIONAL MEASUREMENT & INSPECTIONS SOLUTIONS

Q-PLUS Labs offers cost-effective, value-oriented solutions for your in-house measurement and inspection equipment needs. Additionally, our 30+ years of experience in the industry allows us to provide you with customized equipment support that's tailored specifically to your business and product quality-related needs.

You have parts to measure or a process to control but need a reliable measurement capability to support it. So that means new equipment, but what equipment? New technical abilities and skills, but which ones and how to find them? How do you bring it all together? Where do you begin? Maybe you don't have the time and don't want to spend months trying to integrate a solution that might work. You don't just need measurement consulting or equipment or training or programming or validation. You need it all!

Q-PLUS Labs Integrated Solution Process:

1. **Consulting:** We break down your challenge, select the proper equipment, and work closely with you and your team to develop a plan and cultivate solutions.
2. **Equipment:** Industry-leading equipment for efficient, accurate reporting and service.
3. **Training:** Comprehensive training from basic UI management to best practices.
4. **Programming:** Expertise takes time to develop. In the mean time, we'll write the programs for you. First Article Inspections for each lot, Gage R & R, Capability Studies, etc. We can even setup the measurement process on-site!
5. **Validation:** We'll run the same tests in our lab. This is essential to ensuring that the process that was planned and implemented functions properly within specifications.

After you're up and running we can provide ongoing technical support, arrange periodic calibrations, and schedule manufacturer's maintenance and service.

Call today to see how **Q-PLUS Labs** can find a solution that best suits *your* needs. Phone: 1 949.380.7758
