

Lean Six Sigma Statistical Tools, Templates & Monte Carlo Simulation in Excel

DiscoverSim™

Discovery through Simulation

**DOWNLOAD A
30 DAY FREE TRIAL
at www.SIGMAXL.com**

Now bundled with MIDACO-SOLVER

- ✓ Developed in collaboration with the European Space Agency (ESA)
- ✓ One of the world's strongest evolutionary solvers for mixed discrete, continuous, constrained global optimization

Why Choose DiscoverSim™?

DiscoverSim™
Discovery through Simulation

- ✓ Excel add-in for Monte Carlo Simulation and Optimization.
- ✓ Easy to use with Six Sigma language – specify Inputs (X's) and Outputs (Y's). Ideal for DFSS, Risk and Project Management.
- ✓ Powerful – 53 continuous and 10 discrete distributions, Distribution Fitting with Automatic Best Fit, specify correlations between inputs.
- ✓ Fast – accelerated calculations with Excel spreadsheet interpreter.
- ✓ Identify important X's with Sensitivity Analysis based on correlation or stepwise regression – includes quadratic terms!
- ✓ Discover solutions to difficult problems with Global Optimization.
- ✓ Optimize statistics such as dpm or Ppk and allow for constraints.
- ✓ DiscoverSim is also bundled with SigmaXL for statistical and graphical analysis.
