Vinyl flooring products must be ordered prior to the discounted rate date in order to ensure availability. RES cannot insure that orders received after the deadline date can be provided by the flooring vendor.

Vinyl flooring is NOT conducive to electrical cords running under the flooring unless the 1/2" rebond padding is ordered. Additional labor costs may apply for channeling the cords thru the padding.

Moss is the world's largest tension fabric manufacturer - we invented the technology and were the first to bring tension fabric to trade shows and retail stores. Tension fabric is fabric (printed or unprinted) stretched over an aluminum framework to create an organic or rectilinear shape.

There are several other creative Moss products available through RES. Note that there is a three week turn-around time on all Moss products. 

All hanging banners and signs are subject to Show Management rules and regulations.

For more information, contact Chris Sowa at csowa@rosemontexpo.com or (847) 993-4819.

**ELECTRIC SERVICE FOR EXHIBITS AT THE DONALD E. STEPHENS CONVENTION CENTER**

Electrical requirements for an exhibit at the Convention Center are based on codes developed by local and national organizations whose professional responsibility is for the safety of all exhibitors and visitors.

1. **SAFE WIRING IS ESSENTIAL**

Donald E. Stephens Convention Center is responsible for the total electrical distribution systems and the linking of all electrical items in an exhibit with the power services of the building.

Serious risks are involved which can be reduced with accurate understanding of basic requirements. Safe wiring inside an exhibit is essential.

Wiring that touches the floor must be “SO” cord which is insulated to qualify for “extra hard usage.” Cord wiring above the floor level can be “SJ” which is rated for “hard usage.”

All flexible cords shall be 3-wire unless the cord is a component part of an assembly which is specifically approved.

The use of open clip sign sockets, tape or lamp cord wire in displays, duplex or triplex attachment plugs are prohibited by order of the Rosemont Fire Department and Electrical Inspection Department.

All electrical equipment and wiring requires evidence of testing and approval by a nationally recognized testing laboratory.

Spot or flood lighting is a hazard when lamps are too close to fabrics or other material which may be affected by heat.

The Convention Center electrical services offer extension cords, spiders and plug molds which provide safety approved multiple plug in capacity.
Order Summary and Payment Sheet MUST accompany this order. All terms and conditions as outlined on the Order Summary and Payment Sheet have been reviewed and understood.

1) All material and equipment furnished by the plumbing contractor for these service orders shall remain plumbing contractor property and shall remain plumbing contractor property and shall be removed ONLY by plumbing personnel at the close of the show.

2) Wall, column and permanent building utility outlets are not a part of booth space and are not to be used by exhibitors.

3) All equipment must comply with state and local safety codes.

4) Prices are based upon current wage rates and are subject to change without notice.

5) Exhibitors are encouraged to make their booth connection within their booth. The standard connector, compressed air outlets is a Parker Series 20 Industrial male quick coupling. The standard connector for water is a Parker high flow coupling BST-4 for a 1/2” line and a male flare for 3/8”. However, no modifications to facility system or equipment is allowed. Exhibitors who are in violation of this will be charged an hourly service charge to repair system or equipment.

6) Special equipment requiring company engineering or technicians for assembly, servicing, preparatory work and operation may be executed without the presence of the plumbing contractor personnel. However, plumbing personnel must make the service connections to such equipment.

7) Equipment using water must have inlet and outlet properly marked and identified.

8) Plumbing service rates listed cover bringing service from main line to booth and do not include connecting equipment. Standard placement for compressed air, water, drain and gas are in the back of the booth. For Island booths plumbing service will be placed in the center of the booth (or at our discretion) unless we receive a floor plan indicating the main location where you require your services.

9) Due to the portable nature of the air lines at the Donald E. Stephens Convention Center, we recommend that exhibitors supply a filter or other equipment to limit the moisture or water in lines.

10) Special supplies, such as; regulators, strainers, traps and other such specialized equipment as may be necessary for your booth should be ordered within thirty (30) days written notice. Every effort to assist you will be made to provide you with all special requirements.

12) Any of your plumbing services that require electric labor to connect and/or operate, should be ordered on the “Electrical Services Order Form” such as; pumps, ejectors and water heaters.

13) All work performed within a booth attaching lines to equipment, running hose under carpet and relocating drops will be charged on a time and material basis, in addition to service requested.

14) Labor between the hours of 8:00 am and 4:00 pm Monday - Friday will be at the straight time rate. Labor before 8:00 am and after 4:00 pm Monday - Friday, all day Saturday, Sunday and Holidays will be at the double-time rate.

All water fills and pump outs will be completed by the D.E.S. plumbing department. Plumbing labor to fill tank(s), will not be dispatched without the exhibitor notifying the R.E.S. Service Center, that tanks are completely set up and ready for filling. When a D.E.S. plumber has completed filling the tanks, you will automatically be placed on the “Pump Out List”. Under no circumstances, should you drain and dump the water. Fill and drain rates listed out include fills on straight time only. Fills after 4:00 pm, weekdays, holidays and anytime on weekends, will incur an additional labor charge. Additional labor will not be charged for post show draining. Multiple units in the same booth, filled at the same time, will be charged based on the total combined gallons used.

State of Illinois legislative changes have modified work rule jurisdictions and wage scale schedules in the Chicagoland area. There are seven major unions that have some jurisdiction in the Chicagoland area. The following guidelines will help you in preparing your exhibit to understand these jurisdictions.

WHAT AN EXHIBITOR CAN DO WITHOUT UNIONS IN THE CHICAGOLAND AREA
Chicagoland work-rules modifications now enable exhibitors to perform several set-up tasks which in the past were under union jurisdiction. Each of these are itemized below, and must be completed by full-time employees of the exhibiting company.

1) Exhibitors may set up and dismantle their own booth displays, as well as the various tasks outlined below, provided the work is being done by fulltime employees of the exhibiting company. No outside workers are permitted to provide set-up and dismantle services unless they are members of a Chicagoland Carpenter Union Local with valid trade show jurisdictions.

2) Exhibitors may use hand tools and power tools to perform work within their booths.

3) Exhibitors may affix clamp-on lights to the top of their booth displays.

4) Exhibitors may calibrate and do repair work on internal circuit boards, and do interconnecting of peripheral computer equipment.

5) Exhibitors may do the connection of lighting, video equipment and light bulbs to an electrical outlet when the outlet has been ordered by the exhibitor.

6) Exhibitors may hang pictures, graphics, logos, etc. onto a backwall display when such items are designed to be affixed by pre-set velcro strips, permanently mounted hooks, or snaps.

7) Exhibitors may hand carry small packages, pop-up displays and desktop computer equipment provided it can be done without the use of a fork-lift, flatcart or dollie, only from a designated parking area.

8) Exhibitors may inflate balloons.

9) Video taping may be done by exhibitors within the confines of their own booths using equipment owned or rented by the exhibiting company, provided such taping does not conflict with show management regulations, and does not require tools or ladders.

10) Exhibitors may un-pack, re-pack and set out their own product line within the booth for display purposes.

CARPENTERS UNION
Carpenters handle the erection and dismantling of display and exhibit booths. This includes all display work with the exception of machinery, signs or lighted headers, unless the sign or header is a permanently attached part of the display. Carpenters also recreate machines for outbound loading. Millwrights, a division of the carpenters union, handle the assembly and the leveling of machinery, as well as the attachment of all guards and shields.

DECORATORS UNION
Decorators handle the installation of signs, drape background, table skirting, and all other items of decorative nature that must be done after a display background is erected.

ELECTRICAL UNION
Electricians handle all electrical work, which includes supplying power lines to your booth, connecting equipment to the proper outlets, installing any signs or headers that are lighted, unless they are permanently attached to the exhibit backwall, and the running of cable within the exhibitors booth.

MACHINERY MOVERS & RIGGERS UNION
Riggers handle all machinery. This includes the unloading of the machines from the trucks, moving the materials to your booth, and a one-time spotting of display ready equipment, which the exhibitor must supervise at the time of unloading. Riggers also remove skids and reskid machines, uncrate machines, and respot machines in the booth if needed. This service must be ordered as needed, at exhibitor’s expense.

PLUMBERS UNION
Plumbers handle all plumbing work such as compressed air, water/drain, or natural gas.

TEAMSTERS UNION
Teamsters handle all freight inside the exhibit hall. They unload all trucks or vehicles, deliver the materials to your booth, and remove and reload materials at the close of the show.

THEATRICAL STAGEHANDS UNION
Stagehands assemble portable lighting and sound systems as well as picture screens 10’ x 14’ in size and larger. They also set stages, operate lighting and sound consoles, and hang lighting trusts and speaker systems.
Hanging of signs from the ceiling, both electrical and non-electrical, is permitted at the Donald E. Stephens Convention Center provided doing so complies with show management rules and regulations and that the following conditions and limitations are adhered to. These conditions have been reviewed and provide limits which cannot be exceeded.

1) The top of a sign may not exceed the height limitation specific to the booth location and show regulations.

2) All Hanging signs must be sent to RES warehouse, using the hanging sign shipping label included in this exhibitor service manual by the specified deadline date.

3) The total weight limit of the sign or materials is not to exceed 1500 lbs. unless approved by RES and the Donald E. Stephens Convention Center.

4) All signs, regardless of size, should be constructed of lightweight metals and plastic to allow greater flexibility and ease of installation.

5) The Final placement of all hanging signs shall be determined by RES prior to installation to insure minimum stress to the supporting framework.

6) No signs are to be hung from any electrical fixtures, raceways, gas, air, fire protection piping, supports or hangers.

7) All electrical and neon signs must conform to electrical codes of the Village of Rosemont.

8) RES Decorators are responsible for all hanging signs. RES will pre-assemble and hang all signs. No carpenter labor through a display house will be allowed to assemble any hanging sign.

9) Set-up instructions must be included with the Hanging Sign Order Form and with the sign crates.

10) Because of the structure of the ceiling and the location of exhibits in relation to support beams, the hanging sign may have to be moved from the original specifications.

11) Exhibitor personnel or display house may supervise on your behalf. Exhibitors who do not provide supervision (either company personnel or display house) agree to accept the charges for time, materials and equipment as determined by RES.

12) You are required to make arrangements prior to move-out for the outbound dismantling, packing and shipping of your hanging sign. RES cannot be held liable for damages or misplacement of sign(s) should outbound dismantling arrangements not be made. All pertinent information and arrangements must be given to the RES Service Center.

Use diagram below to represent the booth space. Indicate how far from each boundary you would like your sign. The ceiling structure and relation to support beams may require your sign to be moved from your specified location. On signs other than banners, include drawings or blueprints with detailed information so hanging anchor points can be determined. There will be additional labor charges if a hanging sign has to be moved once it has been suspended based on location indicated by the diagram provided by the exhibiting company or display house.
