

EBC from ASNT...One of the most trusted names in NDT.

Secure nondestructive testing (NDT) personnel certification compliance and ensure proper oversight of your employer-based NDT certifications programs with the American Society for Nondestructive Testing's (ASNT's) Employer-Based Certification (EBC) Audit Program.

The EBC program provides the NDT industry with a registry program that ensures NDT service providers and inspection agencies meet the minimum compliance with either ASNT Recommended Practice No. SNT-TC-1A or ANSI/ASNT CP-189 through the employer's written practice.

THE BENEFITS OF EBC

- ✓ **Competitive Advantage** – An effective employer-based certification program can be a critical enabler of growth.
- ✓ **Recognition** – Receive recognition from ASNT—the industry-recognized, trusted source who developed SNT-TC-1A and CP-189.
- ✓ **Standardization** – Tackle the challenges faced individually by companies through industry-wide standardization and practices.
- ✓ **Cost Reduction** – Save time and resources and reap potential cost reductions through fewer site visits to review NDT personnel certification.

TAKE THE NEXT STEP

To learn more about the program and how to become an accredited organization, please visit asntcertification.org/ebc. Contact ebc@asnt.org with any questions.

ABOUT THE AMERICAN SOCIETY FOR NONDESTRUCTIVE TESTING INC.

Serving more than 22,000 members, certificate holders, and organizations worldwide, ASNT, based in Columbus, Ohio, is the largest technical society for NDT professionals. ASNT certification and standards programs, publications, conferences, education, membership, and professional development programs are the foundation for expanding awareness of advancements in NDT. Governed by a volunteer group of officers and directors, ASNT is organized by councils representing interests relating to certification, engineering, research, education, and section operations.

MISSION

ASNT exists to create a safer world by advancing scientific, engineering, and technical knowledge in the field of nondestructive testing.™
